Year 2 Spring Term 2025: Those who came before

As inventors this term, we will...

Develop our knowledge of a range of mechanisms such as levers and sliders. We will create a strong free standing structure which is water-proof.

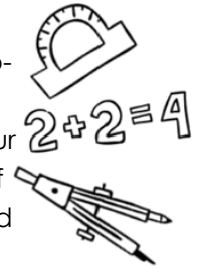

As scientists, we will...

We will use our knowledge of materials and their properties to explore the work of two famous British Scientists, Charles Macintosh and John McAdam.

As mathematicians this term...

We will use the four operations addition, subtraction, multiplication and division to solve mathematical problems. We will develop our reasoning skills to support our explanation of our working out. We will look at fractions and measurements.

In P.E. this term...

We will continue to master basic movements including running, jumping, kicking, throwing and catching, as well as developing balance, agility and co-ordination.

balance, agility and co-ordination.

As artists, we will...

Use different materials, alongside artistic techniques to create printing and collages. We will create patterns, and use layering when combining different everyday materials. We will rip and cut materials to suit the desired cre-

As writers this term...

We will use two key texts 'Wanted the Perfect Pet' and 'Meerkat Mail'. We will develop our use of expanded noun phrases, coordinated and subordinated conjunctions and a range of punctuation.

For our well being...

We will learn about how to care for ourselves and our environment. We will look into strategies to manage our emotions, set goals and develop our growth mindset.

As historians this term...

We will develop our knowledge of significant people in history focussing on Mary Seacole, Florence Nightingale and Edith Cavell. We will explore their achievements and the significance of what they did.
